Director: Frank Cuevas, W6AOA
Editor: Jerry Hagen, WA6GLD

3 April 69

SWAN ISLAND - W4ZXI should be making an April trip to this rare island signing KS4CF. All band operation is possible.

ST MARTIN - Mac, KV4AM is signing PJ6AA from Saba Island (counts as Net. St. Martin for 5BDXCC) on 3522, 7022, 14022, 21022 and 28022 KC CW. On April 5 Mac will Qsy to -----

M ONTSEFERRAT - signing VP2MQ for 3 days. Mac promises 80 meter operation from 0400 GMT daily.

MOROKULIA - The free state of "Morokulia" which exists between Sweden Norway will be activated by SK7AX members during the WPX Contest on April 12 and 13. The call will be SK9WL and 3 IRC's are required for QSL. A special stamp and postmark will be used for QSL's. This will probably NOT count for a new country. (Tks SM7CRW)

THAILAND - WA4PUC/HS is active daily about 1430 to 1600 GMT on 14295 Kc SSB. This one is now LEGAL to be worked by W/K, however HS calls should not be worked.

TIMOR - CR8AI, Luiz has been active on 14240 SSB from 1400 GMT almost daily. Good luck with the pileup! Luiz is also reported on 28600 KC SSB at 2200 GMT Daily.

RHODES - SV0WN scheduled for 1 week and will check in on the YL SSB net (14332) at 2200 GMT on 4 and 5 April.

ST. BRANDON - Gus is still in Mauritius signing VQ8CP and says to look for him as VQ8CPB next week. He will operate 40, 80 and 10 meters for 5BDXCC Mauritius this weekend.

AVES ISLAND - The YV0AA Dxpediton has apparently been delayed or possibly canceled due to bad weather and sea conditions.

COCOS-KEELING - VK9KY is due to open up from this rare spot at any time. Frequencies are 14050 and 14195. He should be stationed there for 1 yr.

THE PREZ SEZ
(W6EJJ)

1970 FRESNO CONVENTION - is scheduled for the weekend of January 31 and February 1 at the Del Webb Townhouse. This is the only weekend available, and we have been promised the new Plaza Room for our banquet and 807 Hour. Convention Chairman W6AOA is already working on the program for what promises to be the biggest joint meeting of all.

ARRL DX CONTEST - Remember to submit your log to the ARRL by April 12, 1969 and send your summary to W6DQX. See QST December 1968, pp 64-65 for information on submitting scores.

Phil Goetz, W6DQX
137 Casuda Canyon Apt C
Monterey Park, Ca 91754

PROJECT MARS - has been organized to purchase a CW transceiver for the Mauritius Amateur Radio Society. Thus far \$49 has been donated. Approximately \$90 is needed for the transceiver. The first user will be VQ8CF who is going to Agalega Island for a 1 year tour of duty. Please give or mail your contribution to the SCDXC treasurer: Bud Baldwin, W6CS 1716 Lorain Rd, San Marino, Ca 91108.

2* METER DX NET - Several members are getting interested in this project. The decision to use AM or FM gear must be evaluated and a single mode chosen for this to be effective. This subject will be discussed at tonight's meeting.

BULLETIN BY MAIL - The board has discussed the possibility of including the "BULL" with membership in the SCDXC. This seems to be an excellent way of keeping members better informed of club activities particularly when a member cannot attend meetings. The Bulletin would also serve as a meeting notice. An increase in Annual Dues would be required to replace the 25¢ per copy now collected to defray Bulletin expenses. This would require an amendment to the Club Constitution and By-laws and will be discussed at the meeting tonight.

ARRL NOTES
(W6NJU)

The FCC has issued notice that there is no longer any objection to communication of W/K's with US callsigns in Thailand using the /HS indicator.

Indonesia and the US have signed a reciprocal operating agreement. Field Day rules for 1969 are being changed in only one respect -- participants may set up in advance, but in such event are allowed a maximum of 24 hours of operation. This change had the informal concurrence of the new Contest Committee.

Director John Griggs will be sending out his Division Bulletin this week. Be sure to return your comments so he can have a good idea of what the membership desires. There will be many proposals for frequency changes, however the FEC has stated that they wanted to make no changes in allocations for at least three years.

A DX Advisory Committee is strongly urged by the Division Director. There will be an attempt to implement this Committee but the original authorization for committees states that there shall be no other Committees formed for at least 18 months. Thus we may have to wait for this one.

HEARD ON THE BANDS

Denis, ZLIDS returned to New Zealand from San Francisco with a Mosley TA-33 Jr. Kribander which has picked up his signal greatly. ----- W6UED polished off the CW contest with 12 3.5 Mc European contacts including GWS, GMS, HB9, OKL, and OZL. Some FB 3.5Mc Europeans were heard the past few weeks. ----- 9VLPD operated 4 bands in the ARRL DX Contest and hopes to get an antenna for 3.5Mc soon. Duncan says that he would like W6 QSL's via the bureau for his California Award. The major trouble from Singapore was the JA's and Europeans calling during the ARRL Test! ----- QSL's from the recent HKOTU operation are already out and it is expected that VKQWR cards will be in the mail shortly. ----- Check 21Mc for Asian USSR Openings at 1430 and 0200 GMT (Short Path) for UH8, UI8 and UL7.

HOW BOUT A DYFEDITION!

LONDON (AP) - The ruller of an old naval fort six miles off the English coast has started issuing his own passports. Paddy Roy Bates a former Army Major who moved his family into the abandoned Steel and Concrete fort in 1966 now calls himself the Prince of Sealand. A British Court agreed in October that Bates and his fortress in the North Sea off Harwich were outside the juristiction of British law. The Foreign office had no comment on the appearance of the new Sealand passports. Bates retains a British passport which allows him to come ashore! - Well someone ready for a new one?????

SUNSPOT NEWS

(QST)

There are indications that solar cycle 20 may yet offer some surprises. Educated guesses are that cycle 20 is behaving much like cycle 17 of the mid 1930's. That cycle had 2 peaks, coming some 12 months apart. Historically solar cycles may have a secondary peak coming as much as 3 years after the primary. Cycle 20's peak of last summer had a smoothed sunspot number of 110 to 120. Don Lund WAØIQN (Essa Bolder) says that it is possible that cycle 20 will reach a primery peak this summer with a smoothed count of 200. This estimate is based on January 1969 sunspot activity. After a lull in October and November the sun sprang back to life in December. Son cautions that solar prediction is not easy and that the current activity could be short lived.

SCDXC 5BDXCC STANDINGS

(As of 1 Apr)

<u>Station</u>	<u>Total</u>	<u>80</u>	<u>40</u>	<u>20</u>	<u>15</u>	<u>10</u>

Well the scores are building! Submit score for May Bulletin by April 27. Good luck!

ARRL CW DX CONTEST RESULTS

Well the ARRL TESTS have been completed and here are some of the SCDXC scores. All bands except 28Mc were quite good. Three SCDXC Multi-op stations broke a million points (W6ANN, W6NJU and K6UYC) while Gordon W6RR topped the Mark single operator for the FOURTH time. Warren, K6NA missed the magic mark by 50 or 60 contacts! Dale, W6GEN battled from XEØGEN and apparently topped ZD8Z by his 160 meter effort.

<u>Station</u>	<u>Class</u>	<u>Band</u>	<u>Qso</u>	<u>Cty</u>	<u>Points</u>
W6ANN	Multi	80	73	23
